

Big Health Check

Diana Bernhardt
Lead Commissioner for Learning Disabilities
September 2010

Big Health Check

What is it?

- Report 1st November 2010
 - What we have done
 - What we are going to do

Big Health Check

Why is it important?

- We need to make sure people have the right health care
- Check our plans are on track
- Decide on what is important for next year

Big Health Check: 4 Top Targets

Target 1

**Making sure people are not living
in hospital settings**

Big Health Check

Target 2

People with a learning disability can use the same health services and get the same treatment as everybody else

Big Health Check

Target 3

**People with a learning disability are safe
in the National Health Service**

Big Health Check

Target 4

- **We are making progress on the things that Valuing People says will help people's health**

Big Health Check

- Getting ready meetings
