

How many of your audience are you missing because they can't understand your information?

- There are **1.2 million people** with learning disabilities and **1.7 million adults** with low literacy in the UK.
- **Working with Words** can help you reach this audience. We produce accessible information, making it easy to understand for people with learning disabilities and low literacy.

Working with Words

making your information easy to understand

Reaching your audience

- We can help you produce accessible information in **different formats**: CDs, tapes, DVD, web pages, leaflets, posters and booklets.
- At Working with Words we work with **people with learning disabilities** who are involved in the production process. We discuss the material and develop simplified text and visual ways to understand your information.
- The resulting product will enable many people throughout the country to access your services.

We have a proven record - recent customers include:

- Transport for London
- Department for Constitutional Affairs
- Department of Health
- Disability Rights Commission
- Councils: Greenwich, Kent and Essex
- Social Care Institute for Excellence
- British Institute for Learning Disabilities
- Mencap and the Valuing People Support Team
