

Person Centred Feedback Form Report 2009

This is the second report for the Learning Disability Partnership Board. This report tells us what people have said in their Person Centred Feedback Forms. We ask all providers in the city to send the Person Centred Approaches Sub Group a 'Person Centred Feedback Form' when they support a person to review their Person Centred Plan.

This information is then looked at and a report is written. This is a shorter report we will put the more detailed report on the Partnership Board Website for people to see if they want to. The information helps the Partnership Board and people who plan services to know what people with learning disabilities want .

This year 70 Person Centred Feedback forms were received and entered into our Person Centred Feedback database. 13 of which were from people who also replied last year, 57 of which were from people who had not replied before.

My message to you is.....

.....
.....
.....

I am healthy and I am happy but would like to make new friends

I would like more 1:1 time and I would like more control over my life. Making more choices about the

I have a great life, full of variety - I am working on being more independent.

I would like someone to come and talk about my future housing options.

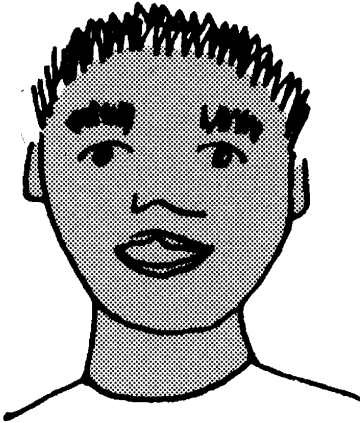

Work or unpaid work

Lack of job opportunities within supported employment services

'Difficulty finding right work

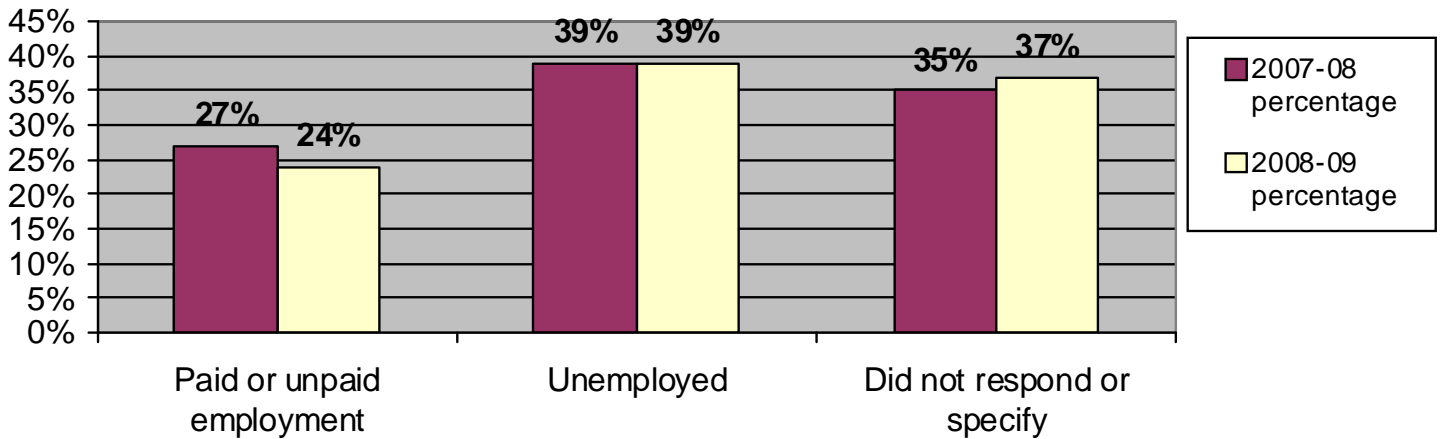

Not being able to get work experience

I am getting older now and I have income support and my pension is coming up.

Employment status of people (Mutex)

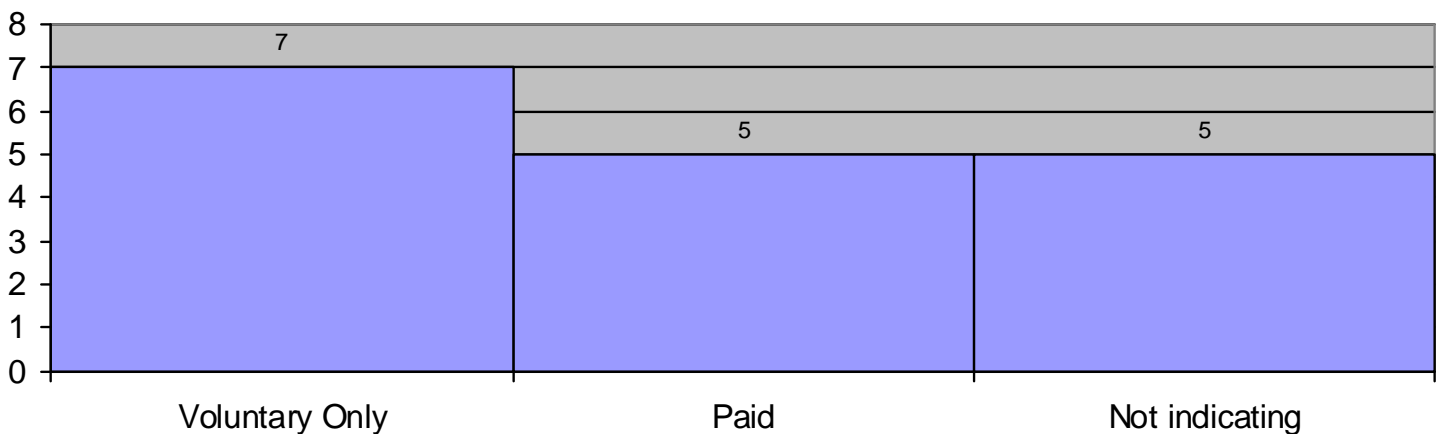

Employment status of people (as shown above)

Of the **70** who returned the feedback form:

- **17** indicated that they were in paid or unpaid employment.
- **27** indicated that they were unemployed.
- **26** did not respond or specify their current employment status

The above graph represents these numbers as a percentage of total responses in 2008-09; it also shows the corresponding percentages as acquired for the 2007-08 period.

Are people in work paid (Mutex)

Unemployed seeking employment (mutex)

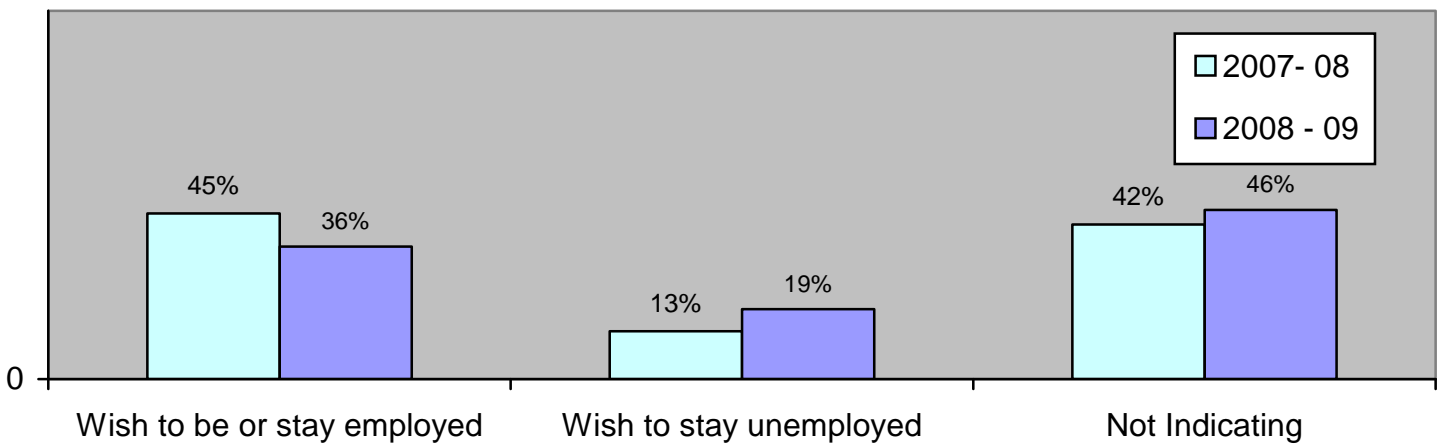

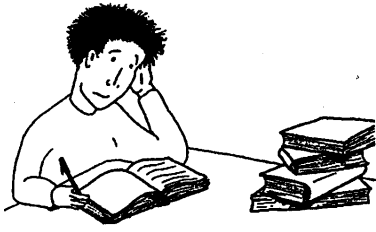

Unemployed seeking employment (as shown above)

Of the **27** indicating that they were unemployed:

- **7** indicated that they were seeking some form of employment
- **13** explicitly stated that they wanted to remain unemployed
- **7** did not indicate their desired employment status

Desired employment status of all groups: 2007/08 - 2008/09 comparison (mutex)

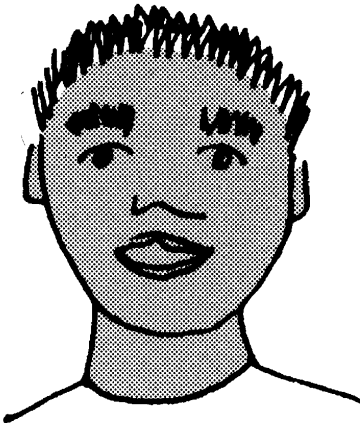

Learning

At the moment I feel too anxious to go to college.

I could learn more skills with someone who understands my autism support needs

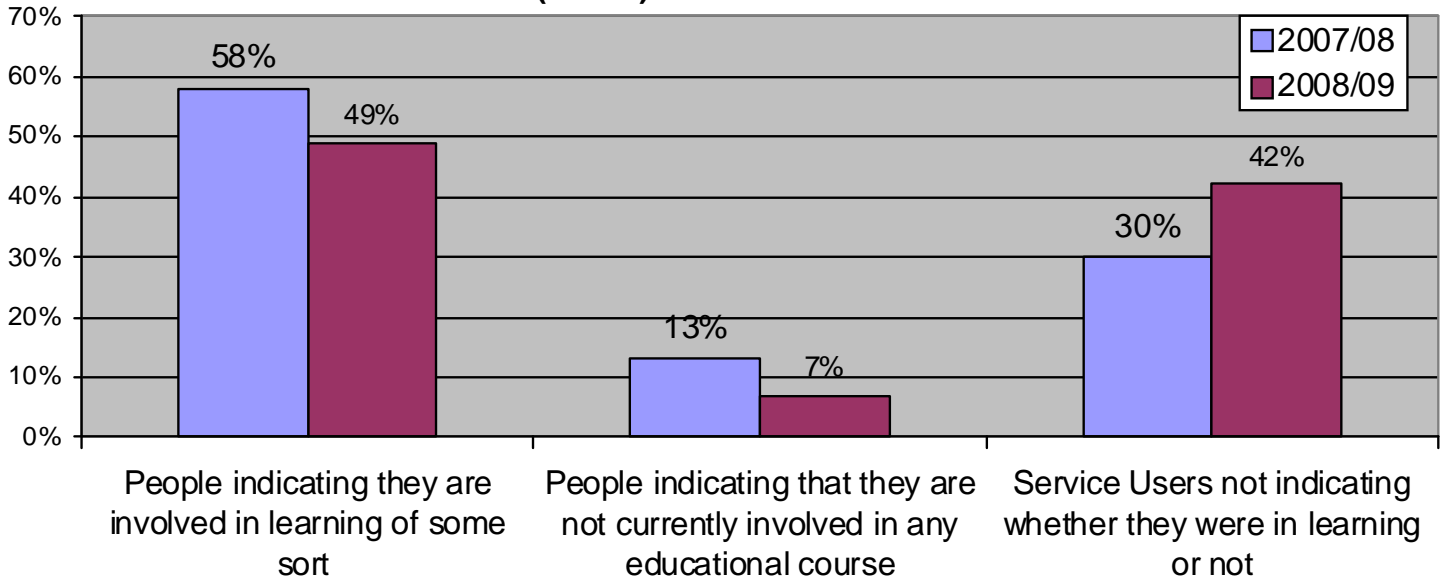

Paying (for course) can I afford it?

Courses do not offer good places for wheelchair users to access, and no facilities for Personal Care

Current enrolment status (mutex)

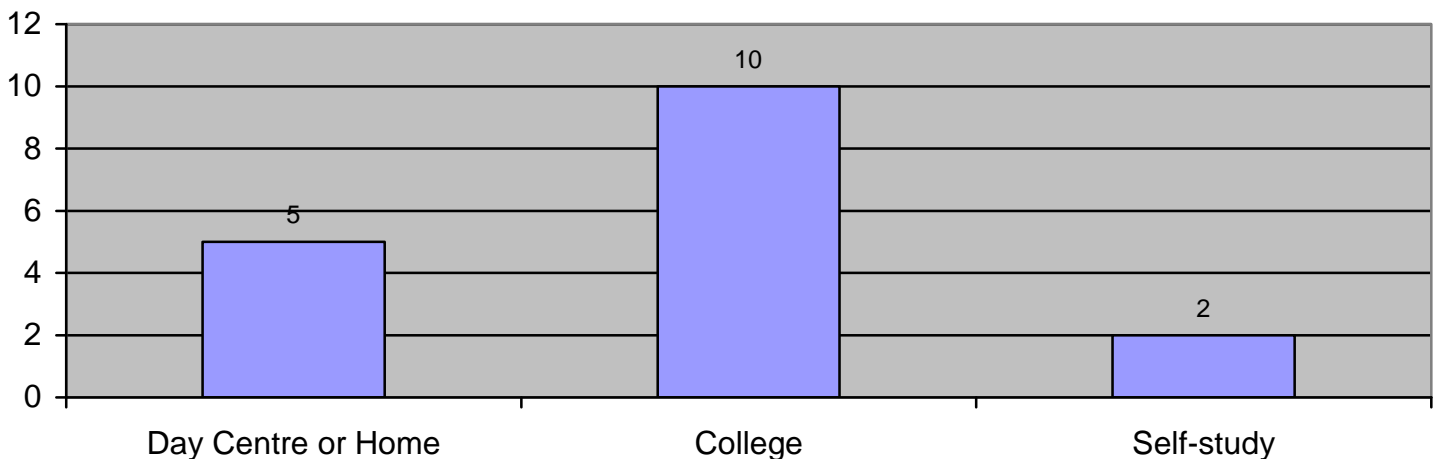

Current enrolment status (shown above)

Of all the people who returned a checklist in the 2008-09 period:

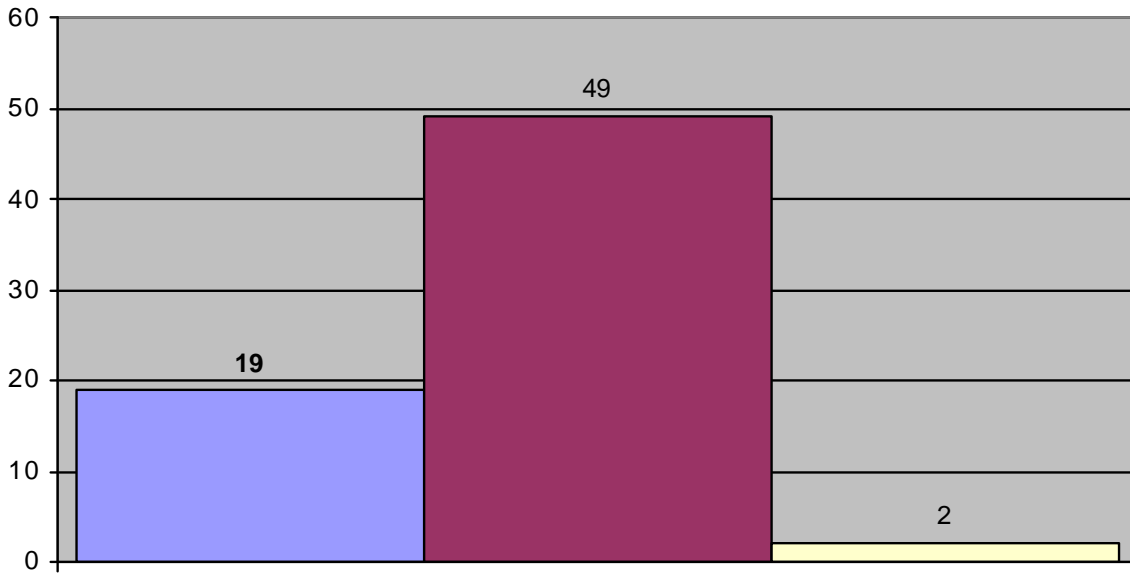

- **49%** indicated that they were involved in learning of some sort.
- **7%** indicated that they were not currently taking any courses.
- **42%** did not indicate strongly either way.

The above percentages are compared with the results from 2007-08. The graph shows there has been an increase in the numbers of people classed as 'not clearly indicating' and a decrease in those specifying both for and against learning activities.

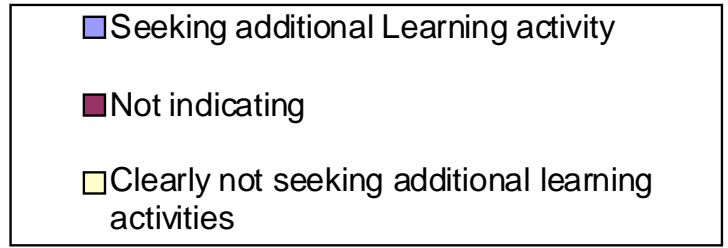

Learning Venues

People seeking additional learning activity (grouped according to current enrolment status and overall) (mutex)

Overall

Leisure and Fun

I can't go out on my own

H swims once a week, it is not always possible to go more than this due to other tenants needs.

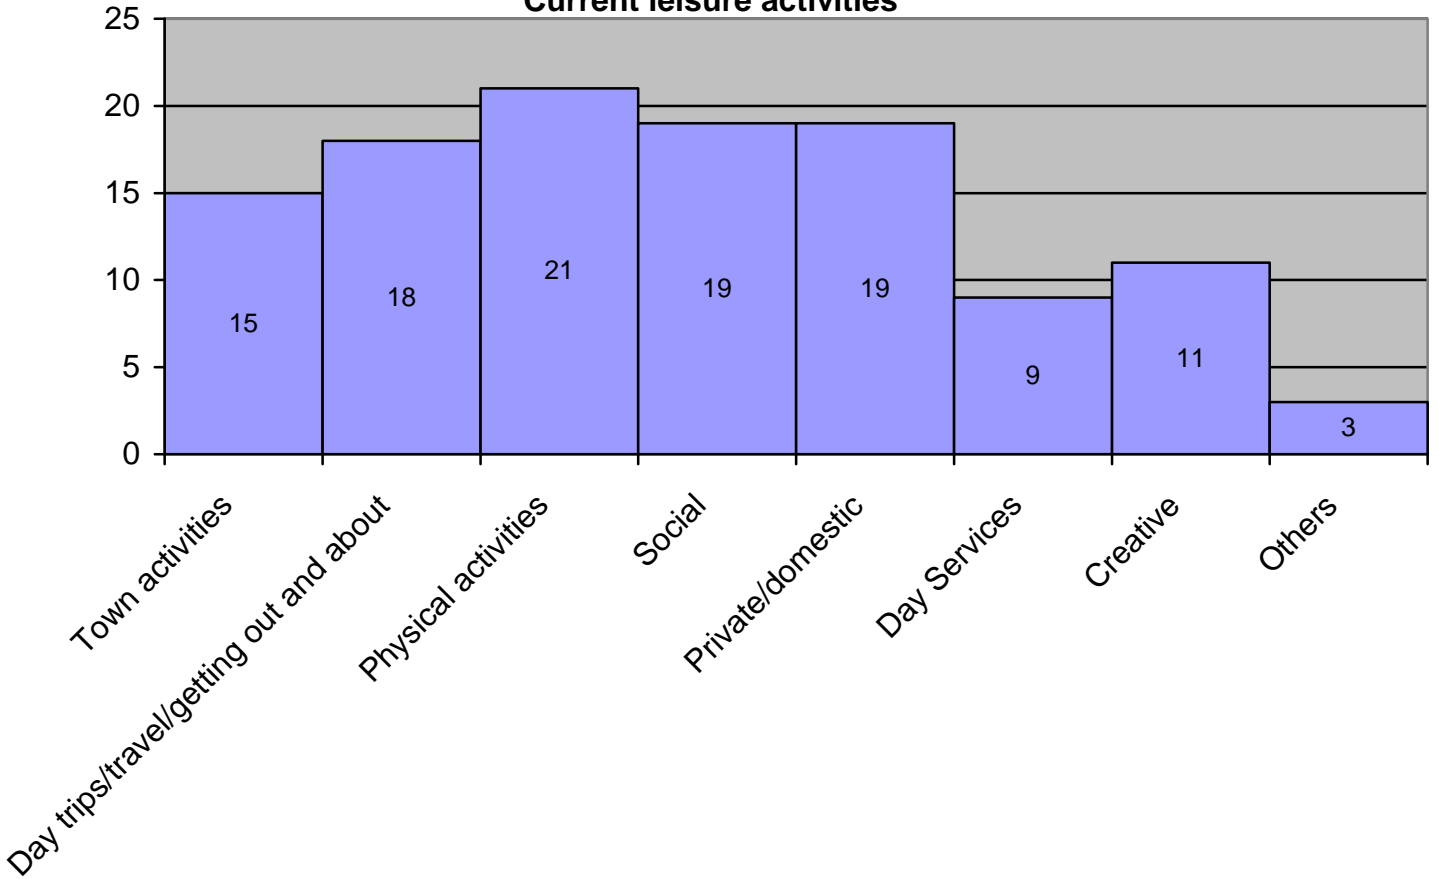

Catch buses and meet my staff at the other end.

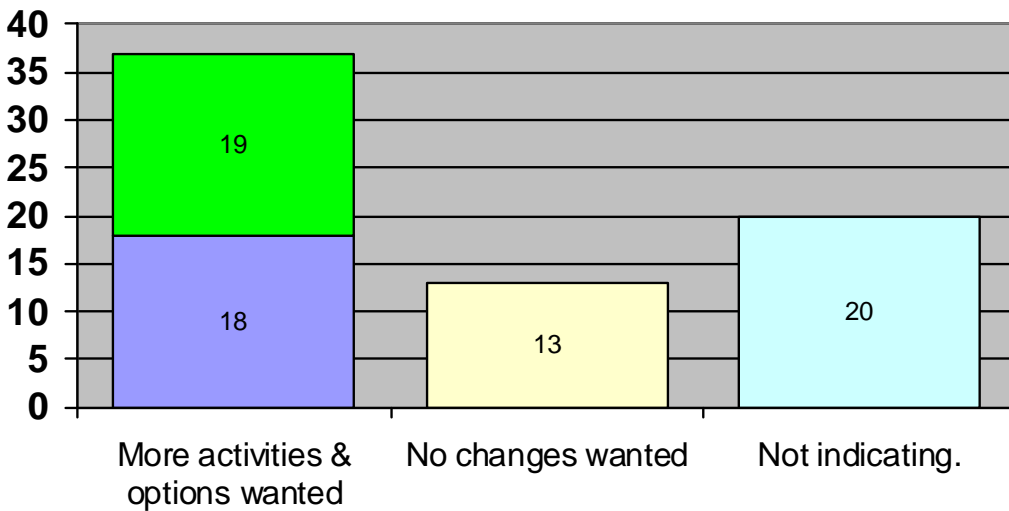

I would like to go on holiday with a Jewish organisation. I like to spend Jewish festivals with familv

Current leisure activities

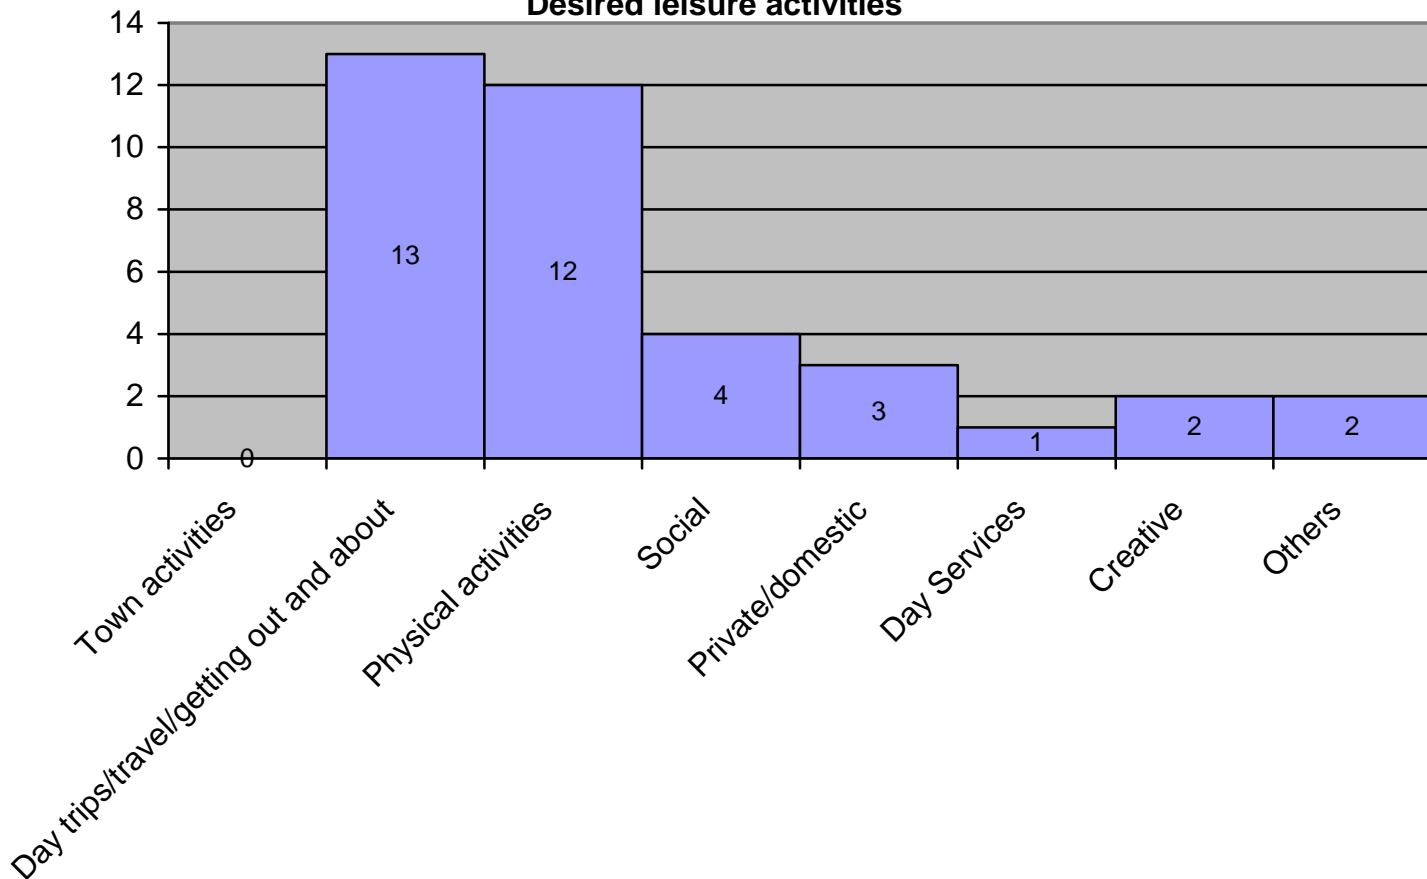

Replies to 'What I really want to change or do is...' [Mutex]

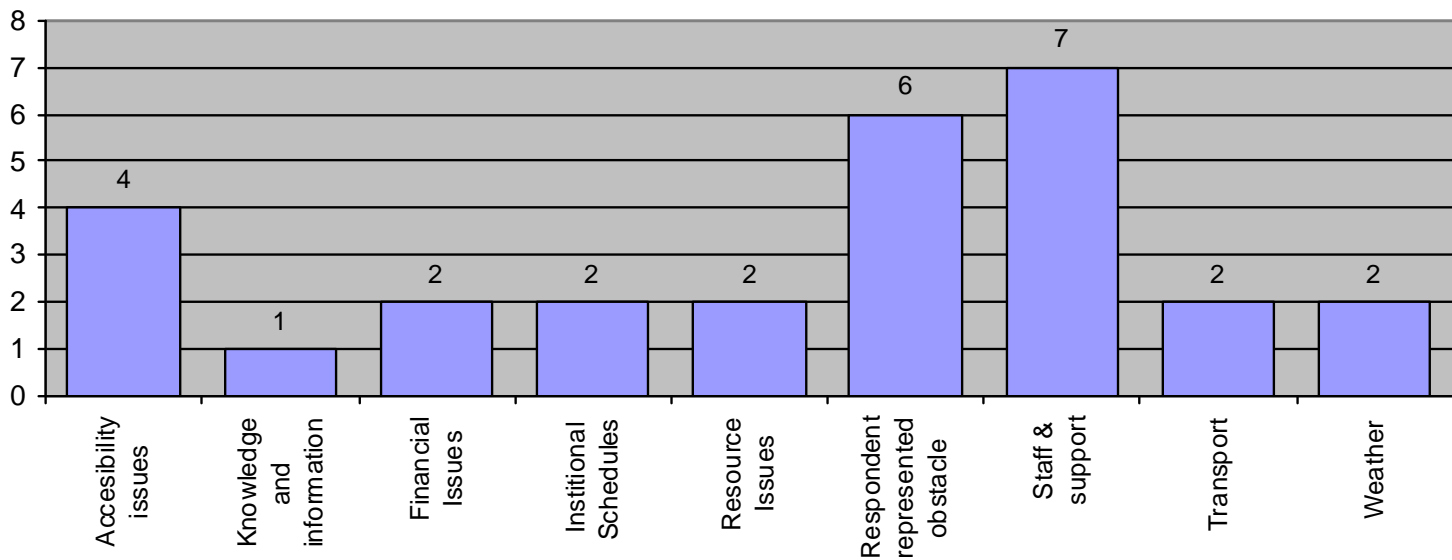

- Not indicating.
- 'I don't want to change anything.'
- 'I just want to commence the following activities...'
- 'I want more choice, variety and/or control over when and how often I do things'

Desired leisure activities

Replies to what is stopping this change from happening?

Feeling Well and Good about myself

B is happy most of the time and has said that taking his medication helps with managing things although a side effect is increased weight.

Feel OK (Think!)

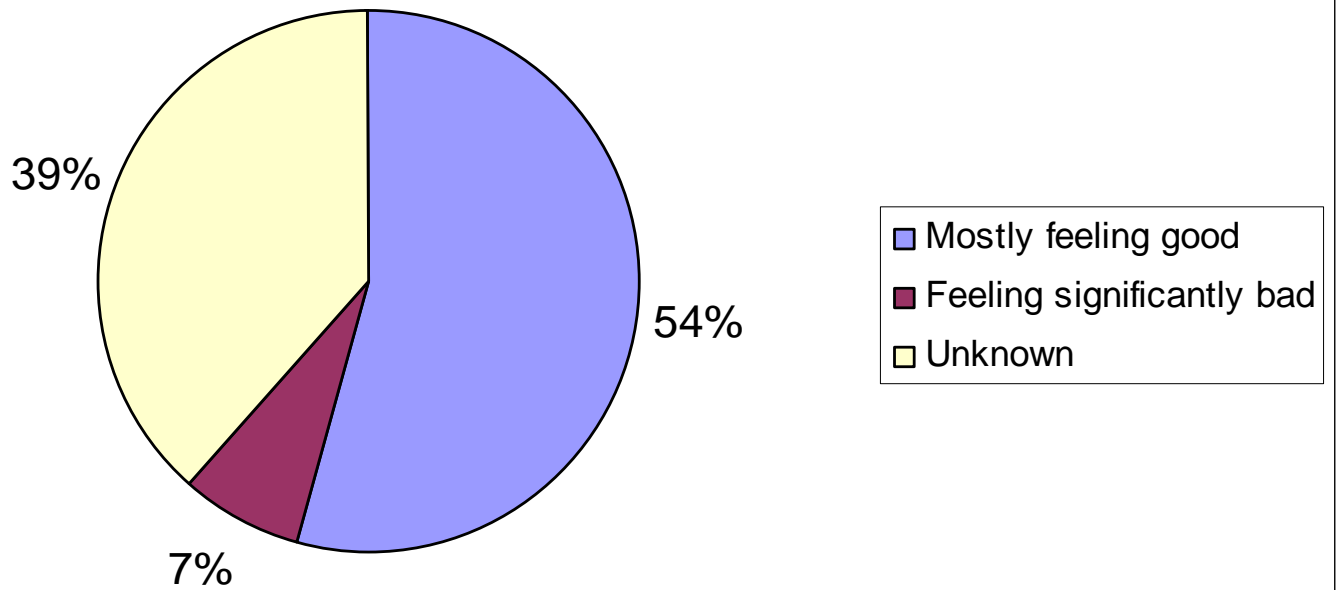

I'm well and healthy; I enjoy helping cook my meals and doing my food shop. I now visit the chiropodist more often (every 6 weeks) I have new hearing aids too which I like.

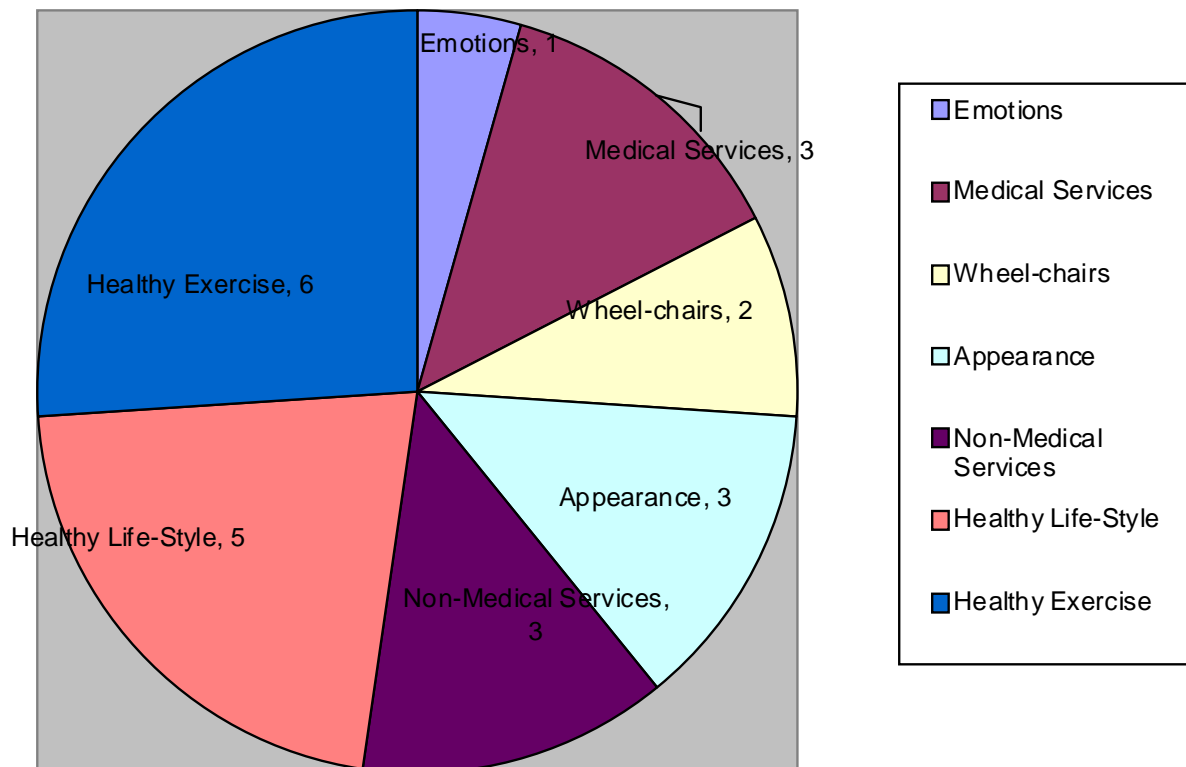

Sometimes lonely in the evening

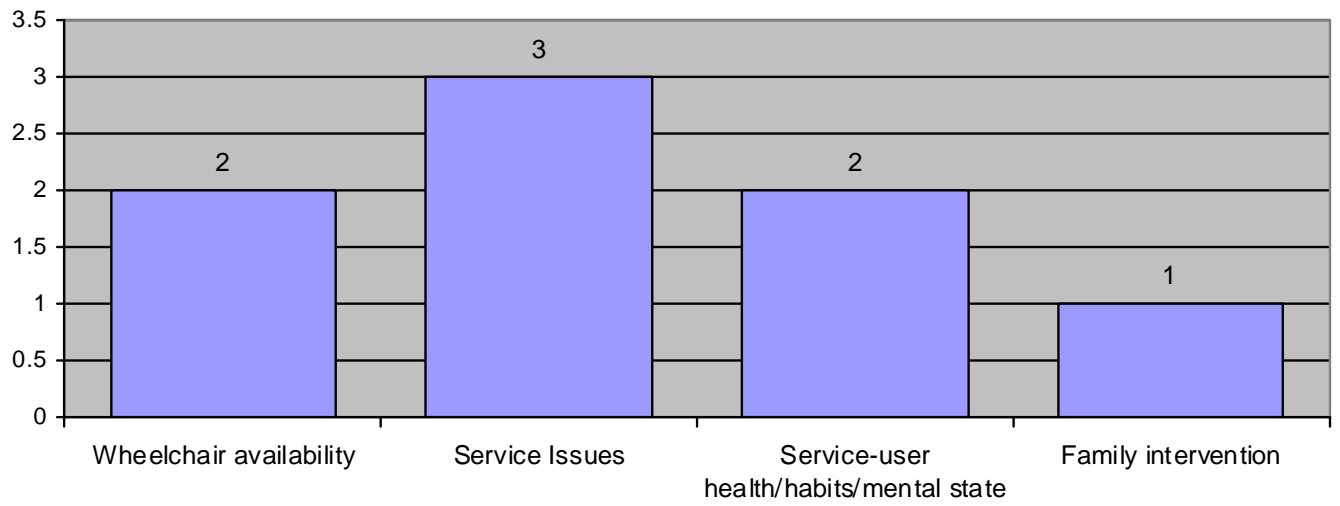

How people responded to 'Feeling well and good about myself' [Mutex]

People seeking change

Replies to 'What is stopping this change from happening?'

Friends, Family and Relationships

Go out more
with friends and
family

more visits to
other houses
for coffee.

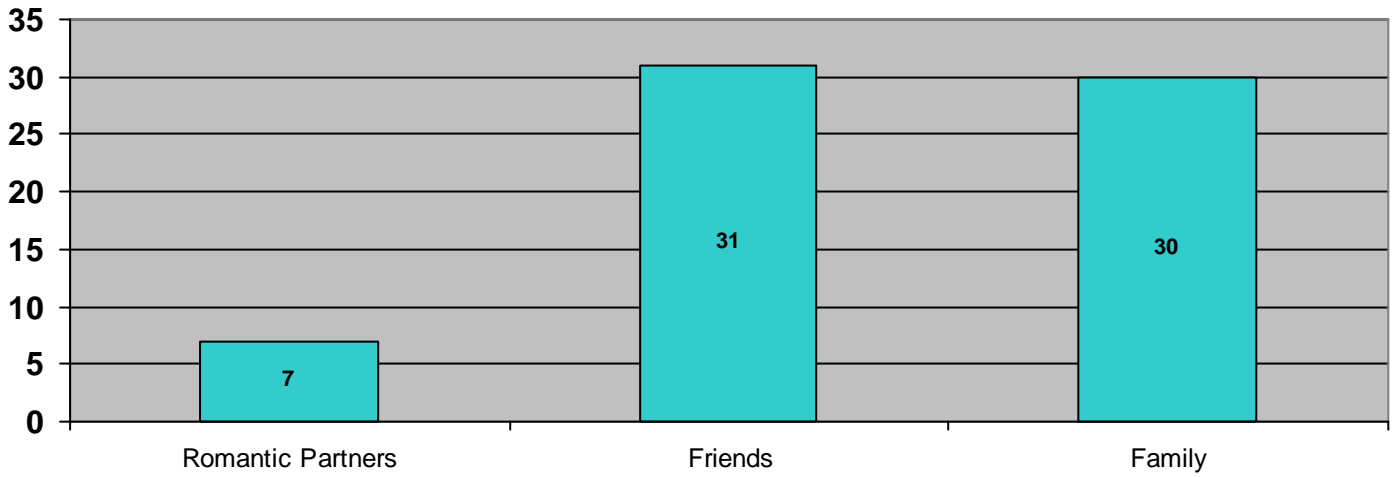

I would like to make
new friends

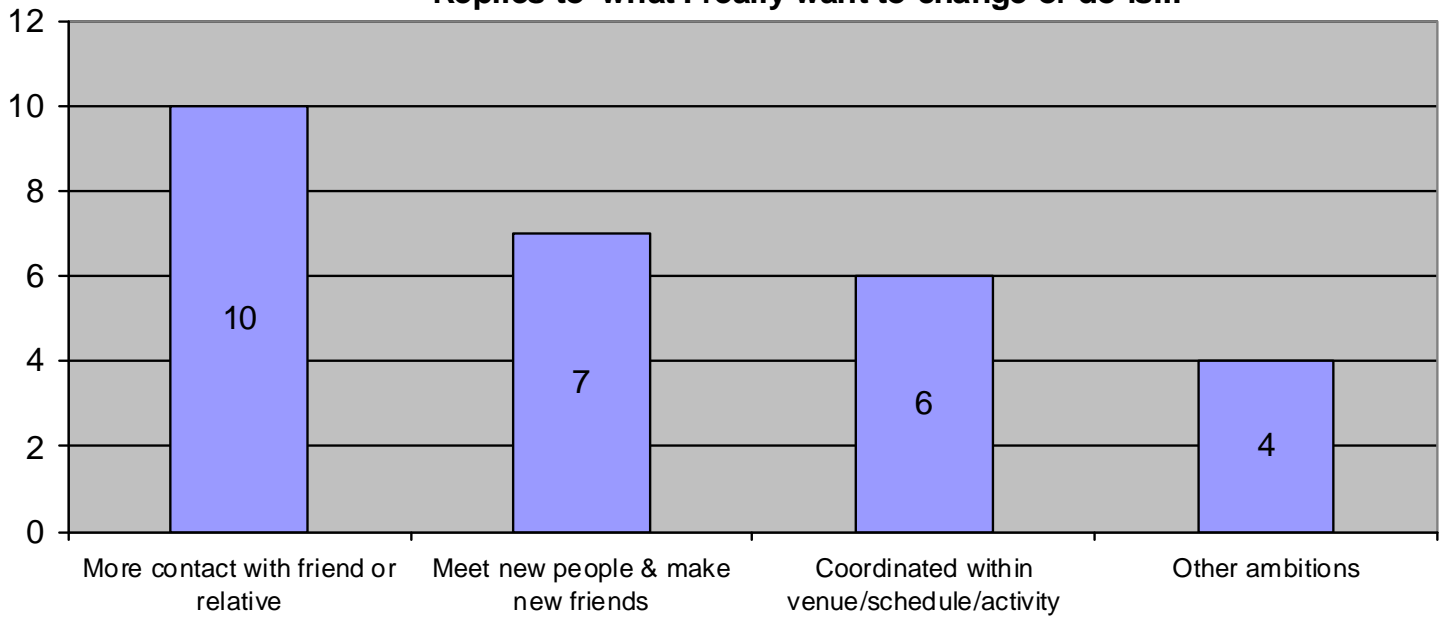

Go out with friends on my own

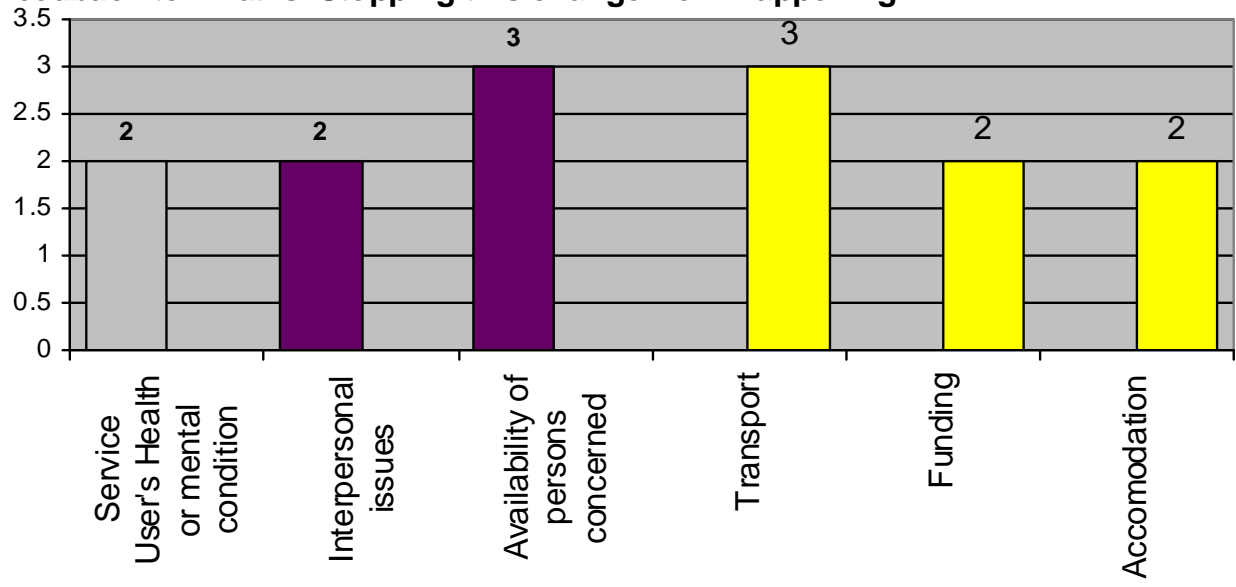

Current relationship types

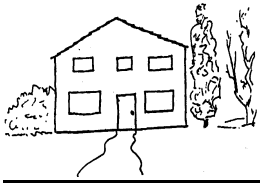

Replies to 'what I really want to change or do is...'

Feedback to what is 'Stopping this change from Happening'

•

'Where and How I Live

I live in a CST
supported house
with 2 housemates

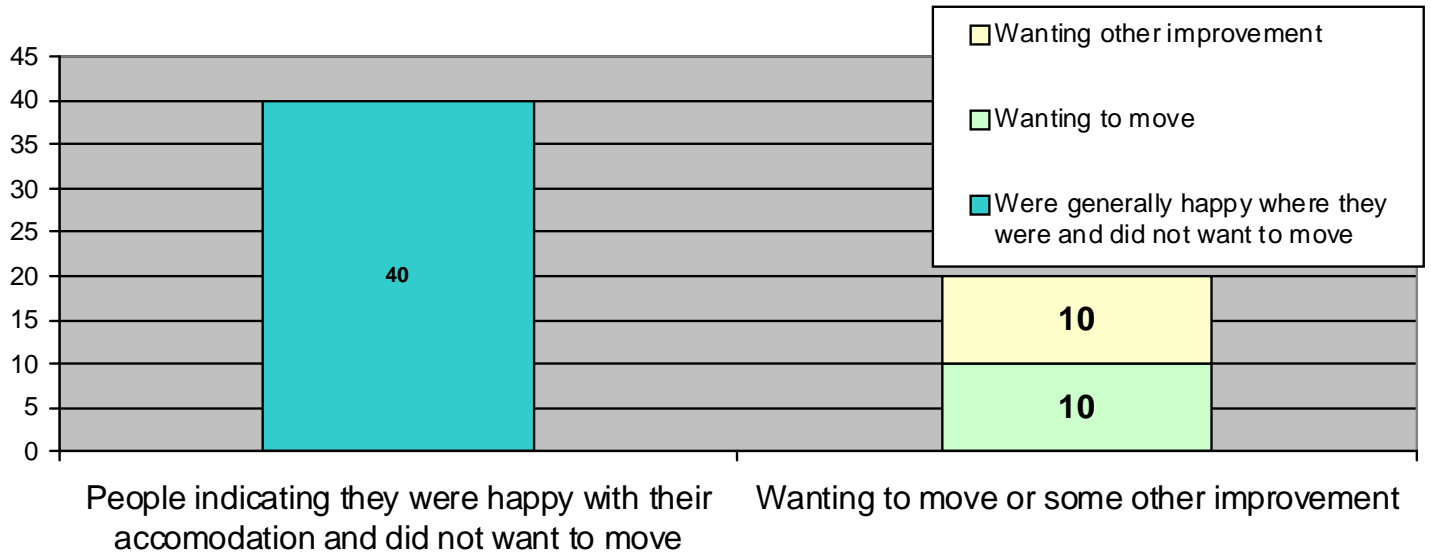

Nothing is stopping this
but I worry about change
and sometimes I don't
want to leave my Mum

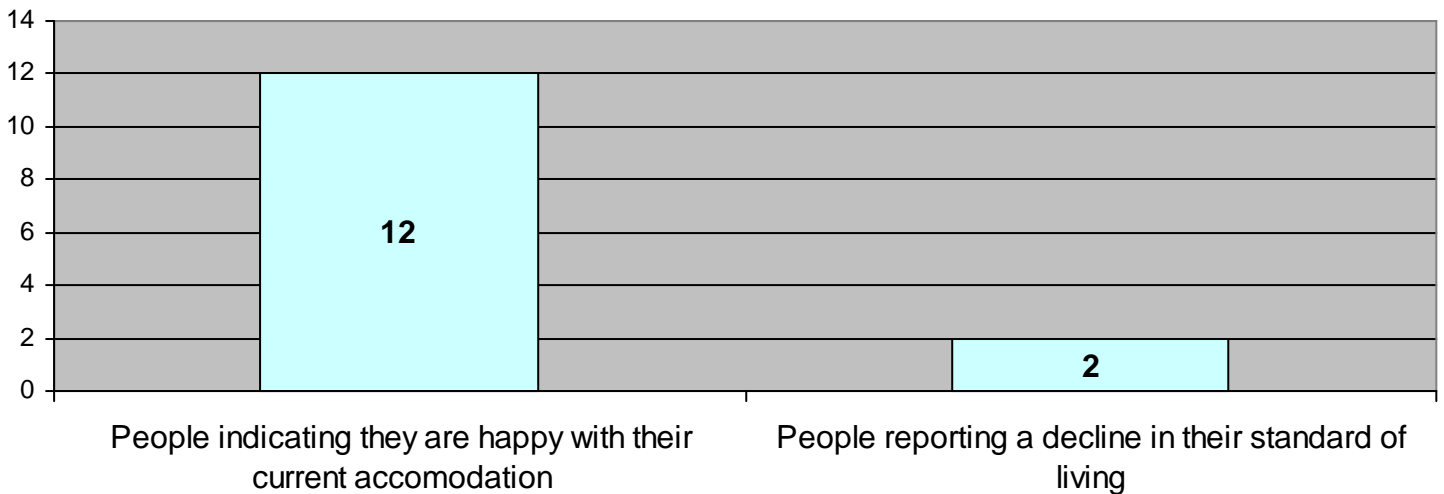

Really Happy
where I live

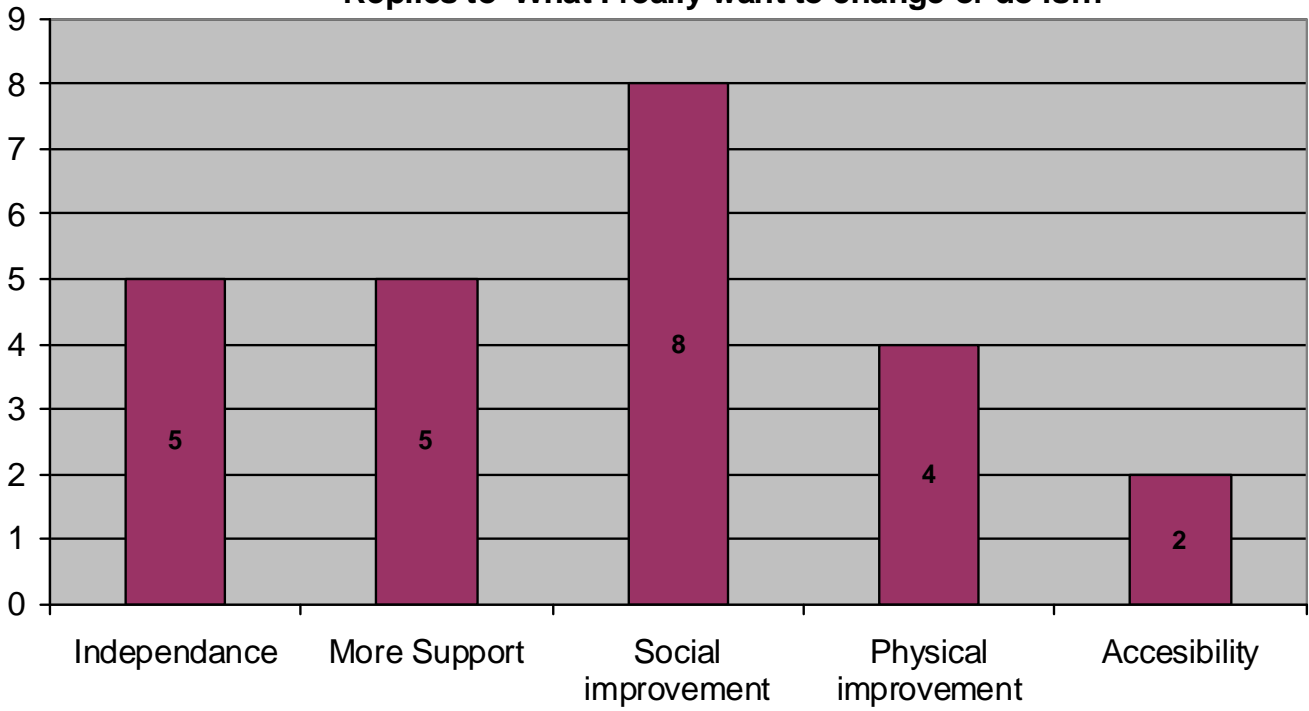

People happy with their accomodation/ wanting improvement

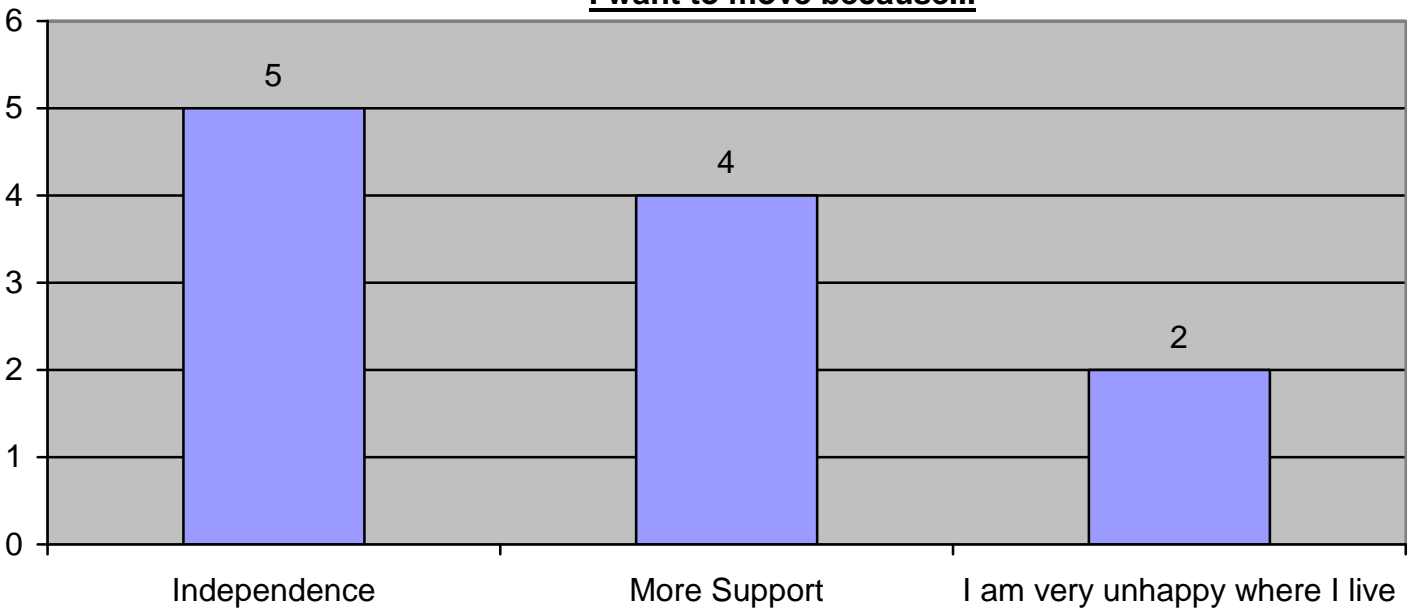

People reporting improvement/decline relating to accomodation

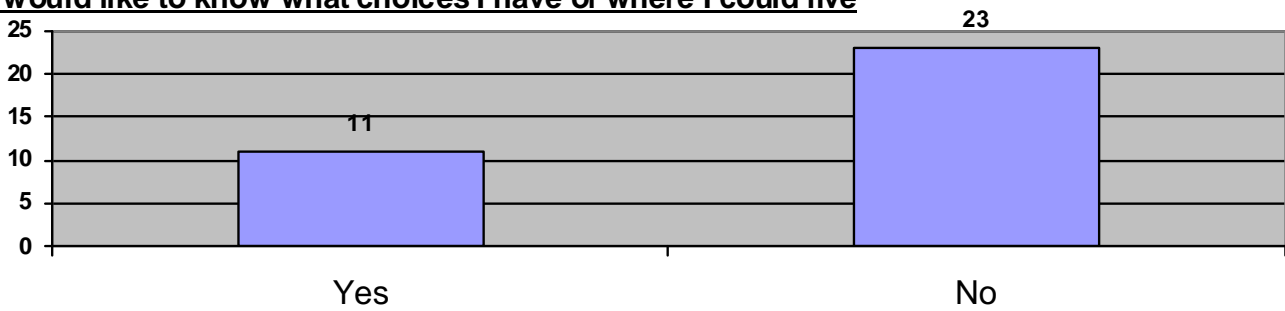

Replies to 'What I really want to change or do is...'

I want to move because...

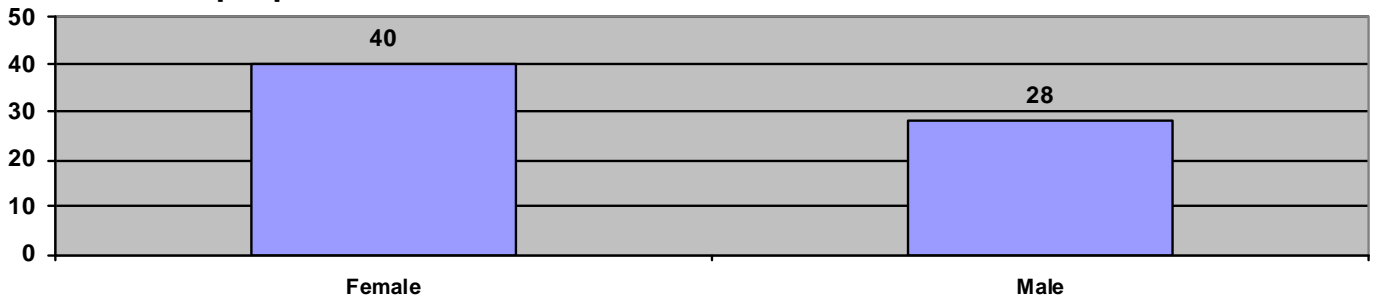

I would like to know what choices I have of where I could live
